

Type 1 NBC model, equal width disc, test data

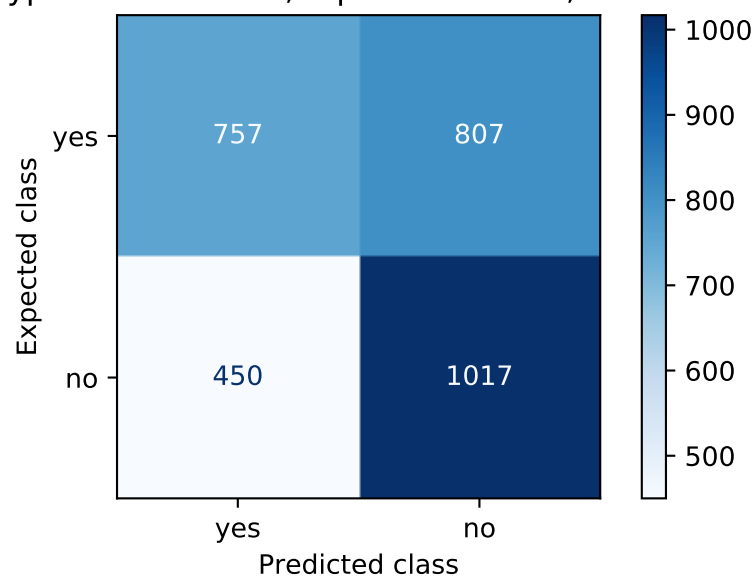

Type 1 NBC model, equal depth disc, test data

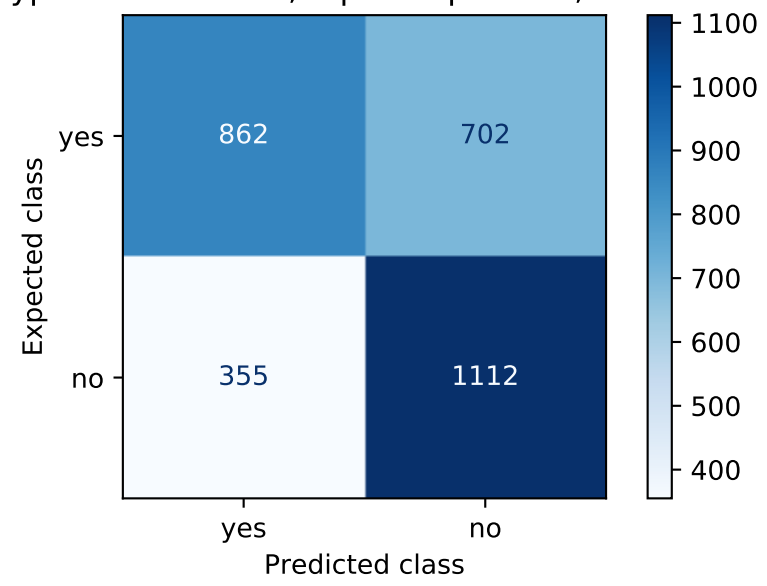

Type 1 NBC model, entropy disc, test data

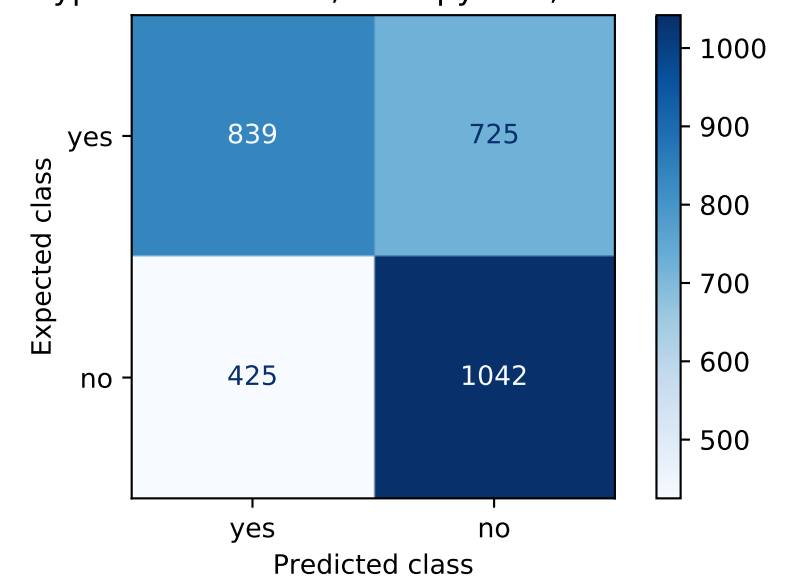

Type 2 NBC model, equal width disc, test data

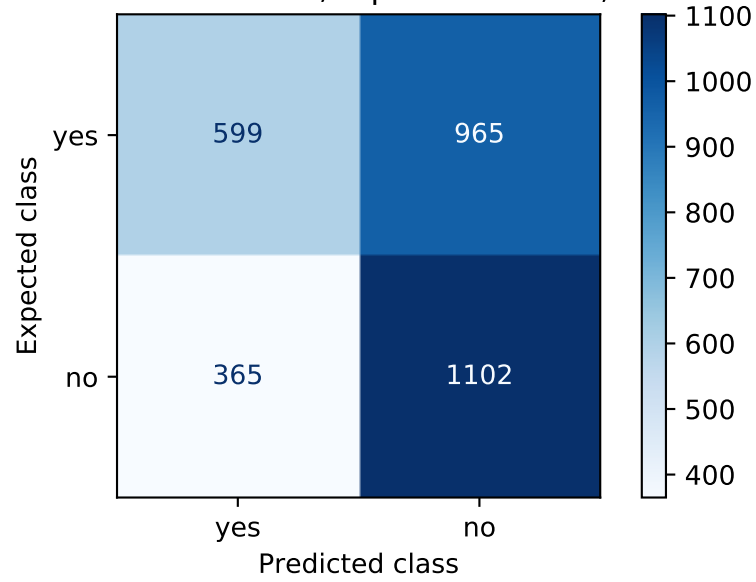

Type 2 NBC model, equal depth disc, test data

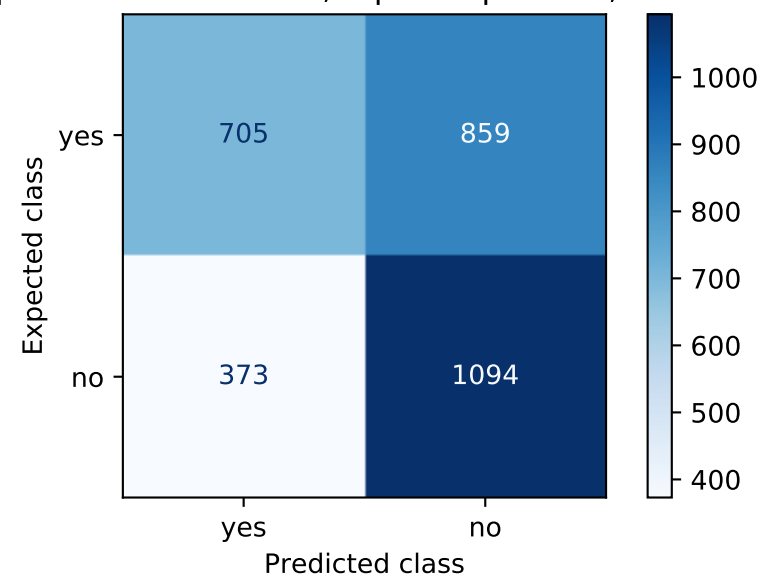

Type 2 NBC model, entropy disc, test data

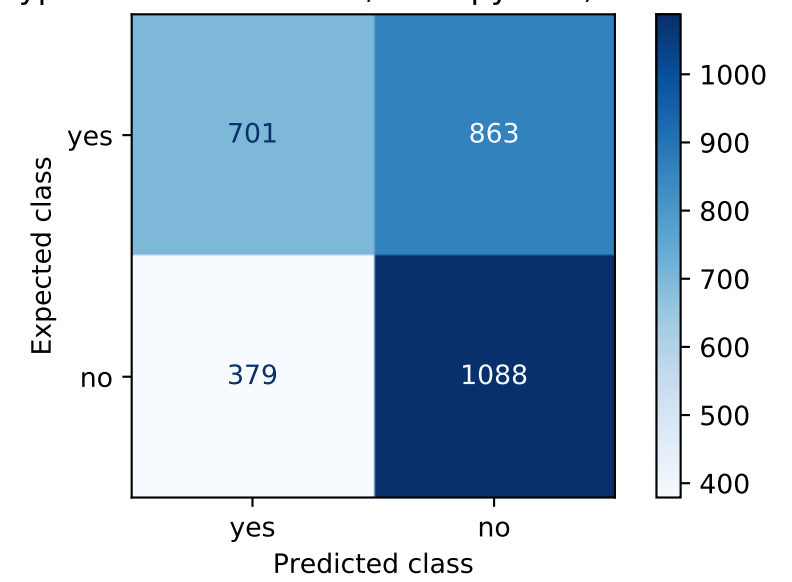

Type 1 ID3 Tree model, equal width disc, test data

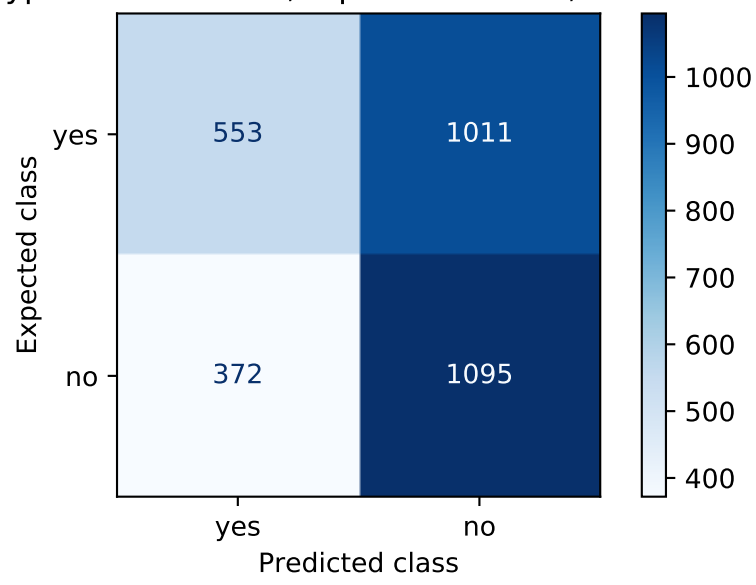

Type 1 ID3 Tree model, equal depth disc, test data

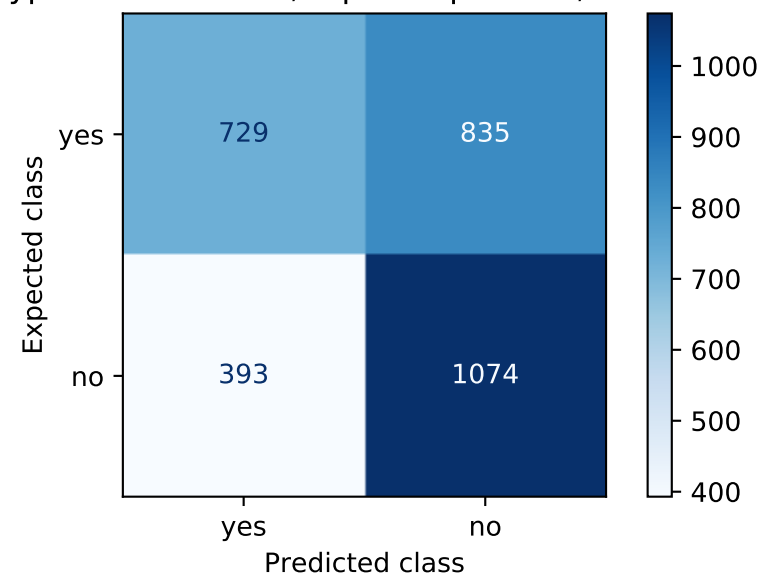

Type 1 ID3 Tree model, entropy disc, test data

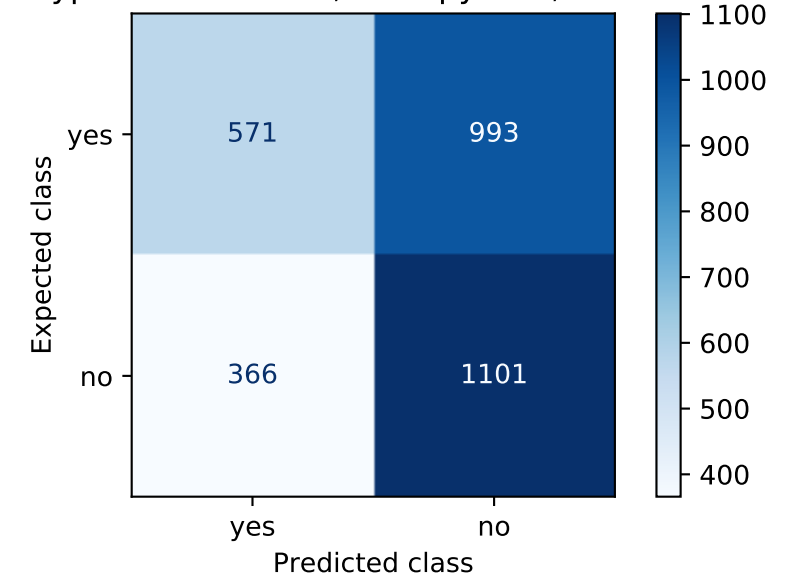

Type 2 Tree model, equal width disc, test data

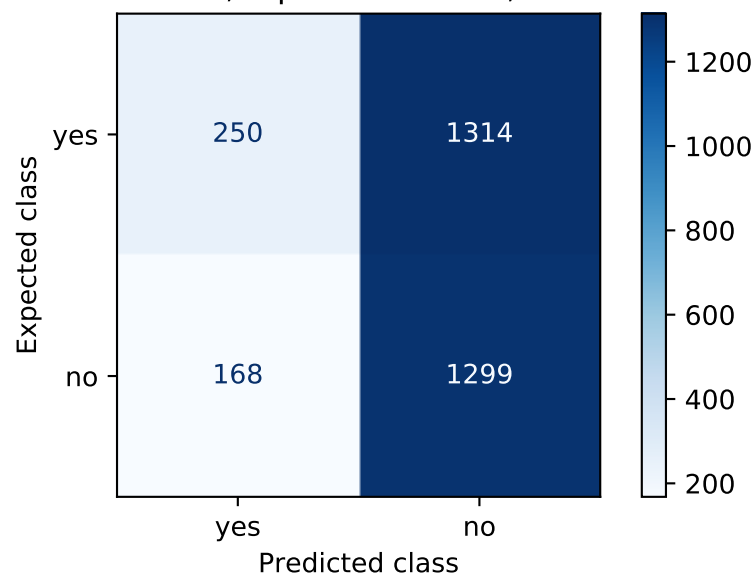

Type 2 Tree model, equal depth disc, test data

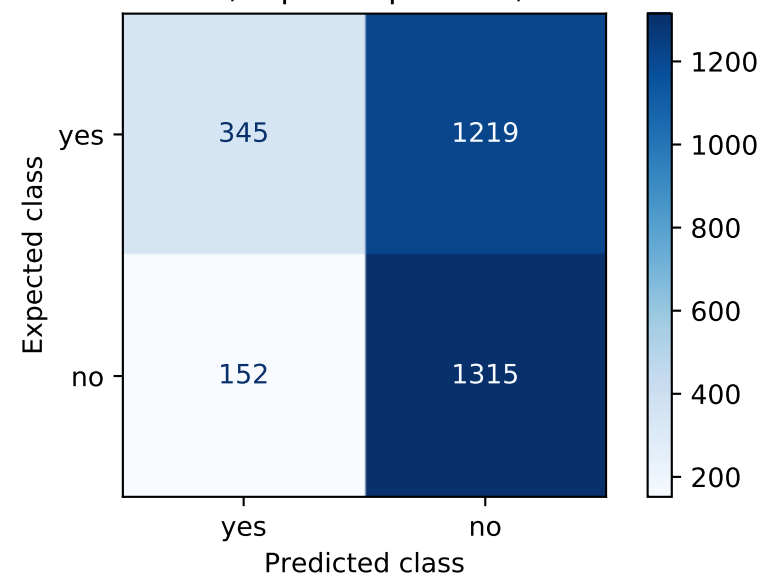

Type 2 Tree model, entropy disc, test data

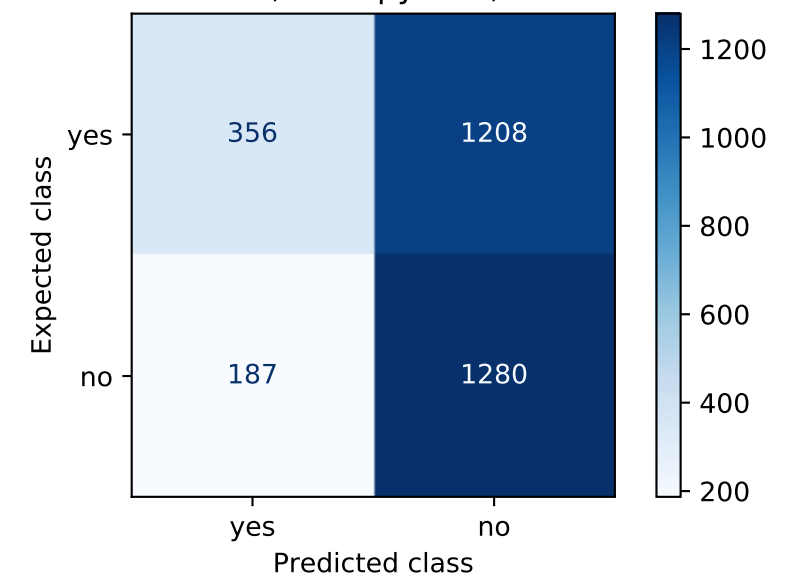

KNN model, equal width disc, test data

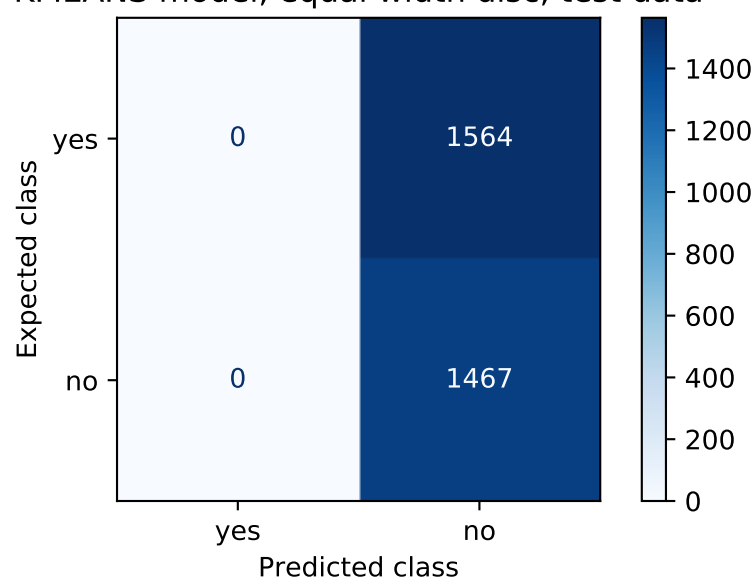

KNN model, equal depth disc, test data

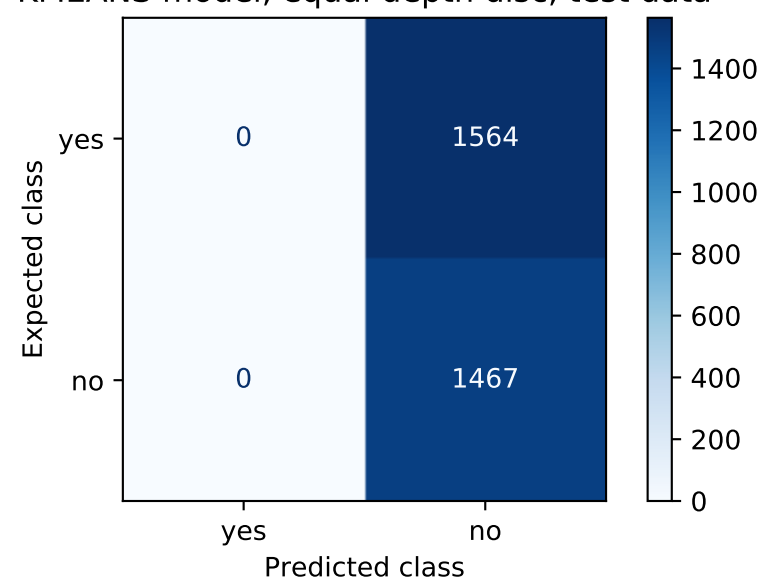

KNN model, entropy disc, test data

KMEANS model, equal width disc, test data

KMEANS model, equal depth disc, test data

KMEANS model, entropy disc, test data
